ANNUAL REPORT.

To the General Assembly of the State of Louisiana:

GENTLEMEN—We beg respectfully to lay before you the workings of the Charity Hospital for the past year.

Although in charge only for the last nine months of the year, we record the fact that not only has all indebtedness contracted during that period been paid, but also all that had accumulated in the three previous months, viz.: January, February, and March, under the management of our predecessors.

It is not our intention to comment upon the acts of the late Board, but this much we are compelled to record, by our sense of duty to the State. They have left us their books in such a condition that notwithstanding every effort on our part to elucidate matters, we are unable to cope with such a financial problem as they present.

By the published report of our predecessors the amount of indebtedness of the institution on January 1, 1877, and to whom due on certificates of indebtedness and open accounts, is the sum of \$72,708 70, December (current bills) unprovided for, \$6,403 70; making a total of \$79,112 40.

For reasons already set forth, it is impossible to say whether this statement is correct or not. We do know, however, that there are many creditors of the institution, and although the claims in perhaps many instances are in other hands than those of the original owners, we would respectfully ask that such relief be afforded as in your judgment may be thought proper.

Although the appropriations which should have passed to the treasury of the hospital at the beginning of our management were hampered by judicial obstructions, and we found the institution without means or credit, several members of the present Board, out of their own moneys, advanced enough to meet the emergency. This act resulted in establishing a credit which has steadily increased, and to-day ranks as high in that respect as it did in ante-bellum times.

We respectfully refer you to the report of our treasurer of cash receipts and current accounts of both boards during the past year, and to the statements of the property account, insurance thereon, and assets.

The clerk's yearly report of the institution, embracing the number of admissions, discharges, and deaths, the diseases now under treatment, and other data, will give some idea of the importance of this most noble and comprehensive charity endowed by our people.

Neither color, race, nor religion form any factor in the right to enter its doors and to receive the benefits desired. Preferences are unknown. All are on an equal footing and fare alike; and although the appropriations have been less than in previous years the poor, sick, and destitute have had every thing provided them, which was necessary to comfort.

By reference to the account current of the Treasurer the amount under the head of "repairs" is presented for your consideration. On taking possession of the institution we found the buildings in the most sorry condition, some portions having actually fallen down. Under the circumstances we were at once compelled to set about restoring and preserving as well as our means permitted. No portion of the buildings is thoroughly safe, and all of the roofs, galleries, walls, cornices, floors, and stairs are utterly unsafe. The repairs must go on; the work already done is not a drop in the bucket; nor is it to be wondered at, as for nearly a quarter of a century no repairs of a general character have been made. We would respectfully request the Legislature to appoint a committee to visit the institution, observe its necessities, and report its wants; and in view of the urgency of the occasion we would earnestly suggest immediate action in that direction.

Many of the patients who now throng our wards are those who should properly be admitted to the Hotel Dieu, that institution having been selected by the general government as a pay-hospital, where all sea-going and inland navigation mariners are entitled to admission on a certificate of the United States officer whose duty it is to issue it. In many cases such certificates have been withheld for non-compliance with required forms, and as a consequence, these subjects apply to the Charity Hospital, where to be sick is to be admitted.

Another subject demands attention. Many persons from other States find their way here voluntarily, or, perhaps, as we find in several cases, sent here by the authorities of their States, no doubt, with a view to relieve their commonwealths of the burden of such pauper support. The number increases in winter—the Southern climate being less rigorous at this season than that of more Northern latitudes. The Charity Hospital becomes more crowded in consequence. It is respectfully submitted that the hospital is not designed as an alms-house; that the tendency of paupers and tramps to take refuge in its walls interferes with its legitimate purpose, and that the matter deserves legislative attention.

The wide field which exists in the hospital for original research in the interests of science, a field which has been so long neglected, deserves a passing word. We recommend the establishment of a pathological department in connection with the hospital, where a record of pathology and histology may be kept and a museum formed for the benefit of medical science.

We can not close this report without making special mention of that noble band of gentlemen, the visiting surgeons and physicians, whose gratuitous care and attention to the poor and unfortunate, can not be too highly extolled. All praise is due them.

Next in order inviting our admiration come the Sisters of Charity. To their care is left the domestic management of the house and the nursing of the sick. No day of rest is theirs. The monotony of their daily routine is only relieved by the hourly admission of one more unfortunate having claims upon their holy and charitable instincts.

Respectfully submitted on behalf of the Board,

M. D. LAGAN, Vice-President.

REPORT
OF THE
TREASURER OF CHARITY HOSPITAL.

TREASURER'S REPORT.

CHARITY HOSPITAL,

NEW ORLEANS, January 2, 1878.

To the Board of Administrators of the Charity Hospital:

GENTLEMEN—Complete statements of the cash receipts, expenditures, etc., of the Hospital for the nine months of your administration are respectfully laid before you for consideration.

Very respectfully,

RICHARD NUGENT,

Secretary and Treasurer.

TREASURER IN ACCOUNT CURRENT WITH CHARITY HOS

CHARITY HOSPITAL.

TABLE No. 1

OF

DIAGNOSES, PATIENTS REMAINING,
DISCHARGED AND DIED

FOR THE

YEAR ENDING DECEMBER 31, 1877.

TABLE No. 1.

REPORT OF DISEASES

FROM JANUARY 1 TO DECEMBER 31, 1877.

| Nomenclature. | Patients Remaining. | | Patients Discharged. | | Patients Died. | |
|--|---------------------|---------|----------------------|---------|----------------|---------|
| | White | Colored | White | Colored | White | Colored |
| <i>Diseases of the Nervous System.</i> | | | | | | |
| Insanity | | | 12 | 3 | | |
| Dementia | | 1 | 5 | 2 | | 1 |
| Imbecility | 2 | | 3 | | | |
| Idiocy | | | 1 | | | |
| Lunacy | | | 2 | | | |
| Mania | | | 1 | | | |
| Mania puerperal | | | | | | 1 |
| Melancholia | | | 1 | | | |
| Hypochondriasis | | | 1 | | | |
| Nervous debility | | | 1 | | | |
| Cerebral anaemia | | | 1 | | | |
| Cerebral embolism | | | | | 2 | |
| Congestion of brain | | | | | 1 | 1 |
| Concussion of brain | | | | | 1 | |
| Softening of brain | | | 1 | | 6 | |
| Concussion of cord (paraplegia) | 2 | | | | | |
| Softening of spinal cord | | | | | | 1 |
| Locomotor ataxia | 1 | | 6 | 1 | 1 | |
| Insolation | | | 4 | | 4 | |
| Insolation, with burn of face | | | 1 | | | |
| Apoplexy | | | | | 3 | 1 |
| Epilepsy | 5 | | 14 | 4 | 3 | 2 |
| Catalepsy | | | 1 | | | |
| Hysteria | | | 2 | | | |
| Chorea | 1 | | 1 | 3 | | |
| Convulsions | | | | | 1 | |
| Convulsions, uræmic | | | | | | |
| Tetanus | | | | | 2 | 1 |
| Tetanus, traumatic | | | | | 2 | 1 |
| Neuralgia | 1 | | 9 | 5 | | |
| Neuralgia, facial | | | 1 | | | |
| Neuralgia, orbital | | | 1 | | | |
| Neuralgia of head | | | 1 | | | |
| Neuralgia, gastric | | | 1 | | | |
